

draw worker's compensation?

SENATOR LANDIS: It does. The amendment was brought to us by Ben Novicoff on the theory that these, at the moment, are workers doing county work. He suggests they be covered.

SENATOR HABERMAN: Any work, for anybody, for any entity, city, county, fire fighters, or anything like this, any of this work that they are given to work out their sentence, if they are injured, they could draw workmen's compensation.

SENATOR LANDIS: Yes, and remember that we are talking about counties who would choose to effectuate this, and courts that would choose to effectuate this. In Lancaster County we want to do this because we have crowded jail facilities and we don't want to build a new jail, and the county would be very glad to take on this option.

SENATOR HABERMAN: Was this in the original bill?

SENATOR LANDIS: No, this is...

SENATOR HABERMAN: This is something that is being added to the bill?

SENATOR LANDIS: That's right. It was in the original bill, I'm informed. It requires a technical change to appropriately word it, but it was in the original bill.

SENATOR HABERMAN: Thank you, Mr. President. I won't take any more of his time.

SPEAKER NICHOL: Did you withdraw that, Senator Haberman?

SENATOR HABERMAN: Yes.

SPEAKER NICHOL: All right. Do we have anything else on it? Okay, Senator Landis, on your amendment. We're back to that.

SENATOR LANDIS: I'd close on the amendment, offer its adoption.

SPEAKER NICHOL: The question is the adoption of the Landis amendment. All those in favor vote aye, opposed nay. Almost six minutes have lapsed. If you care to vote, please do so. Senator Landis. No, we're short of votes.
